

ENGINEERED SYSTEMS

CRANE AND HOIST SPECIALISTS

ABOUT ENGINEERED SYSTEMS

Founded in 1969 and headquartered in South Carolina, Engineered Systems has grown into one of the Southeast's leading providers of overhead cranes, hoists, and material handling solutions. With nine locations across the region, we offer full-service capabilities including design, fabrication, installation, maintenance, inspections, and modernizations. Our team of experienced professionals is committed to delivering reliable, custom-engineered systems that meet the highest standards of safety and performance.
